

Espionage Research Institute International

What Do You Do When Counter-Espionage and TSCM Is Your Business But You Can't Be At The ERII Counter-Spook Conference ?

Then Order the Conference Video's

Listen As Complex Technical Fraud Cases Are Discussed
Learn As Professionals Discuss Their TSCM Equipment Tests & Comparisons
Meet & Network With Other Technical Counterespionage Professionals

Look, Listen & Learn

See Counter-eavesdropping Equipment Demonstrated & Discussed – Bluetooth, WiFi & Cellular Eavesdropping Detection Methods,
Listen As Professionals Discuss Audio\Visual Conference Room Inspections, Portable X-ray Inspection Techniques, Complex Espionage & Criminal Technical Fraud Case Updates

Conference Videos Available On Flash Drive Or, Get The Entire Video Archive Set On A 1TB Hard Drive

The Material Presented At ERII Conferences is Hard, Detailed & The Sort of Information That's Not Available From Books, Magazines, Manufacturers or Any Government Agency. Conference Presentations Deal With Current Affairs, New Equipment Presentations, Progress & Problems in Technical Surveillance Countermeasures, Information Security and Counterintelligence Operational Issues

Even If You Did Attend The ERII Conference Get The Video's Just To Review What You Thought You Heard Them Say -

The Entire ERII Video Archive is Now Available On A 1 TB (1000 GB) 2.5 Inch USB External Hard Drive

Espionage Research Institute International Conference presentations have been available in digital format in sets of from 10 to 20+ Video CD-ROMs (MPEG-1 encoding) but we are discontinuing the disk sets in favor of using Flash Drives. Each CD Set (1999-2013) has about an hour of viewing time per disk. Flash Drives have each day of presentations in a single continuous MPEG1 file. Videos come with a printed index making it easy to locate specific speakers and topics. Video CD-ROMs & Flash Drives can be viewed on any IBM compatible computer using freely available software such as QuickTime®, Windows Media Player®, VLC Media Player®, etc. The 1 TB (1000 gigabyte) Portable External Hard Drive contains the entire ERII video library of presentations since 1999 in both continuous playing VCD MPEG-1 & Dvd quality MPEG-2 formats. See the Video Archive Chart for a complete listing of conference videos and available formats.

Video CD-ROM Sets Are Currently Available For Conferences Held from 1999 through 2013 But CD-ROM Sets Will Be Discontinued When Current Stock is Exhausted – Beginning in 2017 videos will be supplied on a Flash Drive only with each Flash Drive containing a single year's conference presentations.

- **Video CD-ROMs and/or Flash Drive Prices Are \$50.00 For Each Year's Edition For ERII Members and \$70.00 for Non-members.**
- **Want It All ? Then Order The 1 Terabyte (1000 GB) Portable External Hard Drive With Conference Videos From 1999 to the Present for \$175.00 For ERII Members and \$245.00 For Non-members – This Price Includes Standard U.S. Domestic Ground Shipping – International Shipping is Extra and Will Be Quoted.**
- **Did You Buy The 1 TB hard Drive Archive and Want It Updated With Recent Or Missing Conference Videos ? Then Send The Hard Drive Back And We Will Update It With All Current\Missing Conference Videos For \$50.00 (For ERII Members - \$70.00 For Non-members) Which Includes U.S. Domestic Shipping With International Shipping Extra.**

Espionage Research Institute International Conference

9 - 10 - 11 September 2016
Embassy Suites Hotel - Alexandria, Virginia 22314

LP VIDEO INDEX

Long Play Continuous Video File: MPEGS-1/MPEG-2 Format

Day 1 (Friday, 9 September 2016)

ERII-2016-D1-MPEG2/MPEG1 (Total Viewing Length = 04:29:01)

J.D. Leasure - ERII Director
- Invocation
- Membership Introduction
J.D. Leasure - CJSIM Program Update
John B. Major (Berkeley Vanionics Systems) - You Brought The Bug
John B. Major - Chinese Cyber Threats
John B. Major - Chinese & Russian Cyber Threatcraft
Jarrett Kolthoff - Chinese & Russian Cyber Fraud
Paul D. Turner - SDR Receiver Hardware/TSCM Review
Charles Patterson - Wire Inspection Tool Review
Lisa Leasure - ERII Website Changes & Improvements
Lee Jones - REI New TSCM Product Developments

Day 2 (Saturday, 10 September 2016)

ERII-2016-D2-MPEG2/MPEG1 (Total Viewing Length = 06:37:41)

J.D. Leasure - ERII Director
Aaron Williams - Ethics In TSCM
Gamine Caterra (Berkeley Vanionics Systems) - ZG/G/G/G Espionage Device Scanning
David G. Major - Russian Intelligence Today - The New Normal
Jimmie N. Mesis - National Ad Sharing Program
Paul D. Turner - TSCM Examination of Infrared/Visible Spectrum
John B. Major - Photonics Intercept Primer - OTDR Trace Interpretation
John Johnson - IOT Supply Chain Security
Lisa Leasure - Poly-Ex - Not Detectable By RF Or Thermal
J.D. Leasure - Poly-Ex - Poly-Ex & Pirimulise
Tim Johnson - TSCM: Then & Now
J.D. Leasure, Lisa Leasure - Best Presentation & Best New Product Awards

Long Play Continuous Video File: MPEGS-1/MPEG-2 Format

Day 1 (Thursday, 17 August 2017)

ERII-2017-Day1-MPEG1/MPEG2 (Total Viewing Length = 06:27:33)

J.D. Leasure - ERII Director
David G. Major - Benediction
- ERII Director Introduction
J.D. Leasure - ERII Membership Introduction
Paul D. Turner - The State of Countersurveillance
Paul D. Turner - Core Advantages of Software Defined Radio Technology
Charles Patterson - Implementing TSCM For Business & Corporations
David G. Major - Terrorism By The Numbers
Paul D. Turner - Commonly Deployed TSCM Antenna Design Review
Gyo An - Stealth DX 2417 TSCM System
Jason Hall - The Cold War Museum: Vint Hill Station
J.D. Leasure - End of Day Remarks
